

Exam questions

- Please answer the following questions and write the letter of each right answer to the table below.
- What sentence you get?

1	2	3	4	5		6	7		8	9	10	11		12	13	14	15	16	17		18	19	20	21		22	23	24	25		26	27	28	29	30	31	32		

Question 1

- What is the only type of sailboat that does not capsize?
 - J. Dinghy
 - K. Light boat
 - L. Keel boat
 - M. Catamaran
 - N. Foiling sailboat

Question 2

- What is the wind direction indicator on the top of the mast called?
 - D. Windy
 - E. Windex
 - F. Windvane
 - G. Windows

Question 3

- Which option is correct on the starboard side of the boat?
 - A. Right hand side of the boat with green light
 - B. Left hand side of the boat with green light
 - C. Right hand side of the boat with red light
 - D. Left hand side of the boat with red light

Question 4

- Which of the statements below is NOT a function of the keel?
 - P. To act as a correcting force against heeling
 - Q. Prevent drifting
 - R. Prevent mutiny
 - S. Together with the rudder, the keel converts the sideways force of the wind into a forward force

Question 5

- In which direction of the wind, does the sailboat drift the most?
 - N. Headwind
 - O. Crosswind
 - P. Board reach
 - Q. Run
 - R. Tailwind

Question 6

- Which of these headsail options is the smallest in size?
 - R. Spinnaker
 - S. Genoa 1
 - T. Storm Jib
 - U. Gennaker
 - V. Jib

Question 7

- Which of the following is NOT a method of attaching the mainsail to the mast?
 - L. Rider
 - M. Battcar
 - N. Integrated rope in the sail
 - O. Sail hooks

Question 8

- The drum of the winch rotates when viewed from above?
 - R. Counterclockwise
 - S. Clockwise
 - T. Both directions

Question 9

- Which knot is suitable, for example, for tying the sheets of the headsail? Tip: A fixed loop is suitable for a long-term and demanding object.
 - P. Figure eight
 - Q. Two half hitches
 - R. Clove hitch
 - A. Bowline
 - B. Cleat knot

Question 10

- What is a comfortable and safe wind speed range for a beginner sailor?
 - H. 7-9 m/s
 - I. 3-6 m/s
 - J. Over 14 m/s
 - K. 10-12 m/s

Question 11

- Which statement does NOT apply to the automatically inflated life jackets?
 - J. Turns the unconscious person's head upwards
 - K. Life jacket's must be checked annually
 - L. Can be weared under the clothes
